

Chemistry Newsletter No. 42

February 27, 2008

I got a short note from Ken Hoffmann the other day saying that he planned to come visit since his daughter would be coming for the scholarship interviews. Unfortunately, the interviews had to be cancelled because we were still having one of the worst winters in some time. Ken's email address is below.

Yesterday, I received a note saying that Sam Enna ('65) has been named Associate Dean for Research and Graduate Education at the University of Kansas Medical School. He has been teaching Pharmacology there since the early '90s.

I also got an additional email address for Paul Campbell ('07) which is below.

And I just got an email from Paul Winkeler ('97) this morning announcing the arrival of Amelia Rose yesterday. This is the second daughter for Paul and Margaret. Paul teaches chemistry and coaches the swim team at Rockhurst High. He also coaches the swim team at Notre Dame High.

A couple of days ago I got a short email from Manu Chaudhry ('01). Manu is in Dental School at UC San Francisco. He has passed his Part 1 of the national boards (NBDE), and is now developing his clinical skills. His email address is below.

March 15, 2008

The other day I was told that Ed Mulligan ('49) has passed away earlier this month. He had retired from Eastman Chemical several years ago, living in Baton Rouge, LA.

Today, I attended the funeral of Clarence Mitchell ('55) father of Brendan, Danny, John, Maggie and Patrick, all Rockhurst alums. There I saw Ray Spickler who was here in the late 70's. Ray is an air traffic Controller for the FAA. He says he will have to retire at age 56 – he is now 49. He lives in Olathe, KS.

And speaking of funerals, it was just one week ago today that we attended the funeral of Dr. Don Gibbs who I am sure many of you had for Organic Chemistry. It was rather sudden. He had one or several strokes and was unconscious for several days before he died. He had turned 65 just a couple of weeks earlier.

We are also looking for a replacement for Philip Colombo ('91) to teach Physical Chemistry. He will be going to the DC area since his wife, Jenni (Bryant) ('98) is finishing her residency and fellowship at Children's Mercy Hospital this summer and must now do her "pay back" to the Navy at Bethesda Hospital. They have two little boys.

Speaking of young children, a couple of weeks ago I got a note from Josh Evans ('00) and Nicole that they have brought a daughter into the world on Feb. 25. Josh and Nicole are both

physicians from St. Louis U. Med, and doing residency and fellowships in Medicine (Josh) and Ophthalmology (Nicole) in Johns Island, SC. Josh's email address is below.

And a couple of weeks ago, I got a nice email from Molly Welch Thiessen ('01). Molly is at Denver (Colorado) Health Hospital doing her residency in Emergency Medicine. She has been selected to be chief resident in EM for next year. Molly got her MD at KU.

She also reminded me that Kim Bezdeck Benage ('99) is also in Denver. Kim did her MD at Loyola in Chicago and is now doing her Family Practice residency at St. Anthony's. Kim is working at Clinica Campesina with the Latino population. Molly says she also uses her Spanish every day.

March 16, 2008

This afternoon I was coming up to my office and Srini Iyengar ('00) was sitting in the hall studying. He will finish his residency at KU this summer and then move on to the flying eye hospital around the world to third world countries for the next year.

And then a little while later Jason Gordon ('00) came in. Jason has started his job with Midwest Research and is getting settled in. He is beginning to find out how many Rockhurst people are at MRI. He got his Ph.D. at Notre Dame in Bioengineering. Both Jason's and Srini's email addresses are below.

And this evening I got an email from John Magnuson ('95). He is practicing pediatrics in Ozark, MO. He married a biology major, Shelby (Whitehouse '95). They have three daughters. His email address is below.

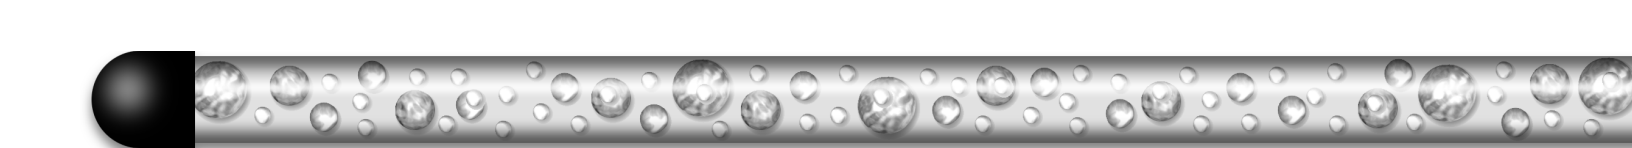

A week or so back, I got an email from Rina Hiratsuka from Japan. Rina was here several years ago ('05) getting her science requirements for medical school. She is studying for the equivalent of the MCAT over there. Except that she has to take it separately for each school she applies to. Her email address is below.

March 19, 2008

A short note from Ellen Niece ('06) tells me that she is working at Children's Mercy Hospital in the Cytogenetics department doing the genetic karyotypes. She is also considering going for her masters degree at KCUMB in their new College of Biosciences. Her email address is below.

March 26, 2008

I had better pass this on, before I forget. I have heard from both Sara and Curt. Thank you both. Here are the "matches" from the KU graduating folks. These were their first choices for their residencies.

Sara Oberhelman—Family Medicine Mayo Rochester MN
Onnie (Winblad) McGeeney—Radiology at KU
Curt McGeeney—Emergency Medicine at UMKC
Andi (Galbraith) McCown—Anesthesiology at KU Wichita

Jackie Riedel was in the other day and told us that she will be doing a surgery residency in several hospitals in New Jersey. Tim Lawler is in the Navy and will be doing Medicine in San Diego. They both graduate with their DO degrees in May from KCUMB. They were the first two scholars from here in the KCUMB pre-med scholars program.

Dr. Laura Salem says that several have been accepted at KU Med Center for internships for this summer. These are Danny Miller (a post-bacc student), Adam Bales (bio-chemistry major), Reggie Nguyen (biology) and Stacy Stieren (bio-chemistry). And Megan Rogge (biochemistry) has been accepted into the Stowers Summer Scholars program. Except for Danny, the others are all juniors.

March 27, 2008

A short note from Todd Brower ('85) reminds me that he is practicing General Dentistry in Lee's Summit. His email address is below.

March 28, 2008

This morning's paper has a notice of the death of Larry Marnett ('45). His sons Larry ('69) and Bob are Rockhurst alums. Larry's email address is below.

March 30, 2008

A short note from Gene VandenBoom ('74) this evening tells me that Gene is moving into the 21st Century, and getting an email address, which you will see below. Gene is a physician here in KC.

April 1, 2008

I got an email from Ed Mangold ('59) this evening. Ed is in Colorado Springs, CO. He says he has been volunteering in Denver measuring the carbon dioxide flux from trees in the Denver area (a component of the global warming problem). He also says his son is an instructor pilot in the Air Force who has put in several 2-3 month tours in the Middle East in the last 4 years is due to go back again to Iraq in June for several months. Ed's email address is below.

April 2, 2008

Mike Wulser ('82) sent a short note giving me his email address. It is below.

And an email came from Franco (Elmer) Gamero ('69) saying that he is doing a lot of translating for legal cases in Michigan, especially as advocate for safety of children in vehicles. Elmer graduated as one of our early engineering science students. He qualifies as an expert witness, especially in the area of highway safety. His current email address is below.

April 4, 2008

Last evening, I had a nice visit with Bryan Bownik. Brian and his wife live in Kansas City North. He got his MD from Missouri U and now practices Internal Medicine at North Kansas City Hospital. One daughter is a physician and the other is looking toward law school.

This afternoon I got a note from Mary Mackay Tyson ('81) here in Kansas City (that is, Overland Park, KS). Mary got her MD from the University of Oklahoma in '88 and is now practicing pediatrics with a group in Johnson County. Her email address is below.

Yesterday afternoon, I got an email from Dan Cashman ('64) in Little Rock, AR. He has been retired for a good 10 years from Baptist Medical Center there where he was supervising a small toxicology section of their lab – substance abuse and mental health services, and he is still doing some lab inspections several times a year, doing some traveling for this, and also some traveling to visit his 6 grandchildren from 4 years down to 6 months, and from New Zealand to around the USA. Much time is also spent with the church since he is now an ordained deacon (Catholic), preaching, teaching and community service. His wife Carolyn is also now a retired CPA. Their email address is below.

April 5, 2008

And yesterday, I received a nice email from Manuel Berrriozabal (Berri) ('52) Manuel is (and has been for some time) Professor of Mathematics at the University of Texas at San Antonio. He has been working with precollege students (mostly minorities) to identify and aid those interested in science and engineering careers. His email address is below.

This morning I got a nice email from Rodney Yarnal ('94) in St. Louis. He has just been accepted into SLU's Psychiatry Residency Program. He got his MD at Missouri U Columbia. As I recall he and his wife did some service project in Haiti a few years ago. They are now running a not-for-profit organization that provides housing and education assistance for folks in Haiti, and is looking for any help they can get for this project. His email address is below.

April 7, 2008

I got a short note from John Sieckhaus ('61) in Milford, CT, He is in the book writing occupation called (for now) "It's All Chemistry Isn't it? A guide to the development and control of chemical technology." He hopes to have it out by the end of the summer. His new email address is below.

And a long email came from Ruben Lopez ('67) in Stamford, CT. He has taught in the Stamford Catholic Schools and the public schools of Stamford and Bridgeport all kinds of subjects, chemistry, biology, physics, math, Spanish, history and even Latin. He is now retired and taking up writing after 37 years in the classroom. Along the way he picked up an M.A. at NYU and spent time at the Pontifical University of Salamanca, Spain. His email address is below.

April 14, 2008

I just opened my mail today, and got a note of bad news, that Rich Otoski ('67) was killed when his plane crashed in Portland, OR last February. He leaves his wife Emily, two sons and a daughter and three grandchildren. Rich was a dermatologist in Klamath Falls, OR. Emily's email address is below.

I also got an email from Gretchen Dunford ('06) this morning. She is at KCUMB and enjoying it a lot. She commented that she was extremely well prepared, too! She reminded me that I had a nice chat with Caleb Downing ('06) a week or so ago, and I forgot to mention it above. He is also attending KCUMB. Email addresses are below for both of them.

April 21, 2008

One day last week, Grace Zentz ('06) showed up here. She actually was here taking a class. She is a student at KCUMB and is taking the MBA program along with the DO program and so will graduate with both degrees in a few years.

Tom O'Toole ('00) sent a brief note with a bumper sticker that he got for 5 cents at a flea market reading "A mole is a chemist's best friend." Tom is a lawyer practicing in Jefferson City, MO. He also included his current email address which is below.

April 23, 2008

I got a short note from Dave Thoennes ('64) yesterday. He says he is home from getting a cardiac artery unclogged and a stent put in. He is planning to retire from American Cyanamid by the middle of the summer. His email address is below.

April 26, 2008

I noticed in an early April issue of Chem and Engineering News that Larry Marnett ('69) will be given the first Founders Award by the ACS Division of Chemical Toxicology. Larry's award is for his research in toxicology, especially focused on the role of the COX-2 enzyme and its relation to cancer. Larry is professor of Chemistry and Biochemistry at Vanderbilt University. He is also the first editor of the ACS journal "Chemical Research in Toxicology."

April 28, 2008

In today's mail I got a card from Laura (Rowland) Moore ('93) with a picture of newly arrived Samantha (Feb. 27th). Laura is an Air Force physician and her husband is an Air Force nurse. They live in Surprise, AZ. She and Sean have three older children.

May 1, 2008

I got a short note from Joe Devine ('67) yesterday including his current email address which is below. He is with Quest Diagnostics in St. Louis and does some traveling with them inspecting their labs around the country.

May 4, 2008

It almost seems that this is becoming an obit column, but this evening I learned that Patrick Mark Adams ('88) passed away

yesterday. He had not been well for sometime, and died yesterday. I don't know anything more.

May 7, 2008

This afternoon I got a nice email from Bob Heumann ('83) in Mendon, MA. He got his chem engineering degree from Rolla and has since had several jobs and is now working for a start-up company, E Ink in Cambridge, MA, developing electrophoretic ink. He and Kristie (Cassmeyer, '83) have three children, out of college, in college and almost in college. They are thinking of making it back here for their 25th reunion. His email address is below.

May 9, 2008

On my way back from lunch this afternoon, I saw Mike Guignon ('78) and Patty. They were with their daughter Maureen ('06). After a business major Molly is starting the accelerated nursing program.

May 15, 2008

Yesterday I got an email from someone I had not heard from in ages, Jack Coffey ('59). Jack got his PhD in Biochemistry from Tulane and then did a postdoc at Rockefeller U in New York and taught a couple of years at Tulane, and then moved to Hoffmann LaRoche in Nutley, NJ for the next 30 or so years. Since his wife died several years ago he has been living on his own. He has three grown children. Since he retired from Roche he has been volunteering at Liberty Science Cent in Jersey City hosting school children through the science museum, maybe as many as a couple of thousand on a busy day. His email address is below.

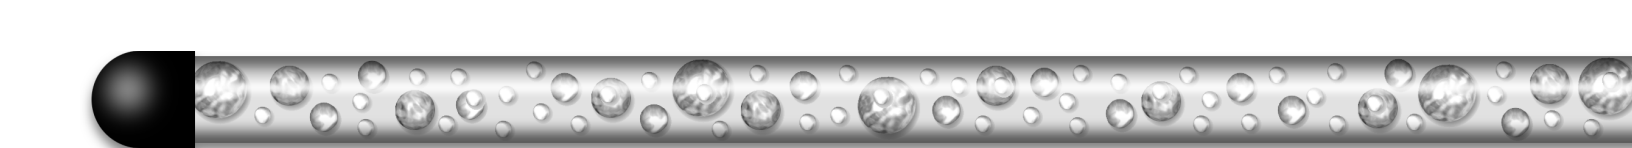

I saw Brad Thedinger ('74) the other day. He is an MD here in Kansas City, practicing Ear, Nose and Throat, but specializing in hearing problems.

May 22, 2008

Jackie Riedel ('05) was just in this afternoon to say goodbye. She got her DO diploma last Saturday and is getting ready to leave for New Jersey for her residency (surgery). Tim Lawler also got his DO. He is now getting ready to get married this Saturday in St. Louis. He is in the Navy and will go to San Diego for his residency.

Also Rich Wikiera ('02) got his DO at the same graduation. That evening his parents had a reception for him where I saw some of his family, namely Rich senior ('77) and wife Denise (Millard). Rich will be doing his residency in surgery in St. Louis. His uncle is Tom Millard ('80) who got his MD a few years back from Kansas and is an Emergency Room physician at St. Joseph's Hospital here in Kansas City. Tom's wife, Carolyn, and their two little ones were there, too.

And I got an email from Curt and Onnie McGeeney (both '04) this afternoon. They got their MDs from Kansas last week and, more important, they have a new daughter as of April. Curt is doing residency at Truman Hospital (UMKC Med) and Onnie is doing her residency in radiology at Kansas U. Their email address is below, but it might change by this fall. If it

comes before I print this, I will change, so what is below is the latest I have.

I got a short email from Joe Molinaro ('64) the other day. Joe is now retired from commercial flying, especially to the near East with Northwest Airlines. He and Arlene live in New Jersey, but their two sons are in California and daughter, with some 5 children, is in Nashville. His email address is below.

And a few days ago I got an email from Jack Landers ('61) with a note that Dick Jeck ('60) is suffering a thymus tumor that will be removed next week. The seriousness is not known yet. Both email addresses are below.

May 23, 2008

I saw Pam Vogelsang-Hampel ('81) and her husband Jeff today. She practices Internal Medicine at the VA Hospital here in Kansas City.

May 30, 2008

I got an email from Dave Thoennes ('64) this afternoon. He is still on "medical leave" from Wyeth and has recently had some serious kidney problems which should have included surgery, but not with his heart problem. He asks for prayers.

Speaking of serious illness, Dick Shaw ('60) sent a note saying that Dick Jeck's ('60) surgery a couple of days ago showed a serious cancer. More prayers.

Philip Colombo ('91) stopped into the office a few minutes ago to say he has now severed his connections with Rockhurst University – he turned in his keys. They plan to be here in KC until late August when they move to Washington, DC, when Jenni is to show up at Bethesda. They are living in Rockville, MD. Their new email addresses are below.

And Jim Millard ('64) who was Alumni Director and more recently Assistant Dean of the Graduate School is retiring this summer. And before he does that he has had some intestinal problems that required surgery several days ago. He seems to be recovering nicely.

June 2, 2008

This morning I got a nice email from Tom Scanlon ('69). He has been an anesthesiologist for 35 years, mostly at San Diego Naval Medical Center, including 6 years as Department Chairman. He has also had some time studying computer application in anesthesia, and Artificial Intelligence. Recently he has been in private practice. Now he is in the process of retiring, largely as a result of failing health. He is learning to relax and trying to get a '49 Ford road-worthy. His email address is below.

June 11, 2008

Now to catch up with the last week or so. Last weekend I was in St. Louis overnight for the Jesuit ordinations to the priesthood. Lan Tran S.J. ('91) was ordained. He had his first Mass of Thanksgiving on Sunday (June 8) here in Kansas City at the Church of the Vietnamese Martyrs. Some of you old timers (me, too) might remember this as St. Augustine's parish (81st and Paseo). He is going to Viet Nam for the summer to teach

mathematics and then back to Boston for one more year of Theology studies.

Scott Hendrickson, S.J., was also ordained. He taught Spanish here several years ago. He has been studying Theology in Madrid, Spain. He will go next year to Oxford, England to pursue a Ph.D. in Spanish Literature.

Kelly Thornberg ('84) was here yesterday showing his son Adam around and hoping that he will think seriously of Rockhurst when he finishes high school in a few years (he will be a sophomore this next year). He and Lisa have one other boy and a girl. Kelly is with Amgen in Longmont, CO. He also mentioned that Dan Timmons ('80) is also there with Amgen. In fact Dan works in Kelly's lab group.

And then when I came back from lunch, Dan Casey ('91) was here waiting for me. Dan is in charge of a residency program in Fort Worth preparing new MD's to practice in rural areas. Dan got his MD at Missouri-Columbia. He and Sara have three young boys.

Dick Shaw ('60) has sent several emails detailing the problems of (Robert) Joe Ingram ('60). Joe has had serious heart problems and is currently hospitalized and yesterday had surgery. In fact, I just got an email from Dick to say that Joe passed away later this morning.

Sunday evening I saw Dan Cashman ('64) at the wake for his mother – she was 100! Dan and Carolyn live in Little Rock, AR where they have been for some time. Dan is now retired but still consulting some. I said much about his occupation a little earlier in this newsletter. He has also been ordained a Deacon and been doing much of that work in his parish.

And I just got a notice that Paul Keenan ('67) dropped dead on the street in New York City yesterday (June 10, 2008), just a few days short of his 62nd birthday. Paul was a priest of the New York Archdiocese, and head of their Radio Ministry, and wrote for the diocesan paper.

June 13, 2008

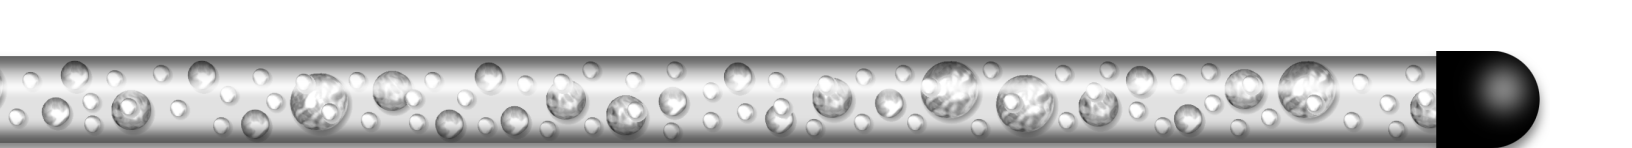

This afternoon, Ken Hoffmann ('85) dropped in with his daughter who will be starting here next August on her way to a DPT degree (Physical Therapy Doctorate). She was here for some preliminary doings for the PT program. Ken has his D. Pharm. Degree and is practicing pharmacy outside Chicago.

And this evening, I got an email from Bryan ('99) and Dawn Menges in Tulsa announcing the arrival of their third (ages 3 down) little daughter as of yesterday, June 12. Bryan got his DO degree and is practicing Emergency medicine.

June 17, 2008

Coming across campus this morning, Jennifer Von Fintel (post bacc '04) called me over. She was here with her twin boys (about 1) who were enjoying playing in the fountains by the clock tower on this nice sunny day. Her husband, Dave, is in our Public Relations department. Jennifer has one more year at KU Med. She is expecting to go into Emergency Medicine. She is studying for her board exams, coming up in July.

And I got an email from Dick Shaw ('60) telling me that

Dick Jeck ('60) had some surgery with removal of a benign tumor and also some malignant lung tissue, but seems to be doing pretty well otherwise.

July 6, 2008

Here it is July already, and I am behind again. Colby Parks ('06) was in the other day. He is finishing his second year at St. Louis U Med School and getting ready to start rotations. Right now he was taking a break after taking the national boards part I. He is also getting ready to take on an Iron Man Triathlon next month. And, of course, he has been at the top of his class in med school.

Joe Nguyen ('04) was in town a week or two ago. I missed him but he left a note to say hello. Joe got his master's degree in Public Health from St. Louis U and is working for the Health Department in New York City.

July 9, 2008

I got a note today from Sara Oberhelman ('04). She has gotten herself settled at Mayo in Rochester, MN. Her email addresses are below.

July 16, 2008

I got an email from Sarah (Hund) Kohler in Milwaukee. She says that husband Eric is hoping to get back to med school by November – he is doing an MD/PhD program at the Medical College of Wisconsin in Milwaukee. He keeps thinking of “just one more experiment” to do. This means he then has two more years to graduation. Sarah is on the research faculty at the Medical College, and teaching Chemistry part time at a local Community College. Sarah got her PhD from Loyola (Chicago) Med school a couple of years ago.

And this afternoon, Pascal ('85) and Deanne Spehar stopped in with their daughter. She is still in high school, but they are starting to look. Pascal is a general surgeon practicing out in Independence and the Blue Springs area. They have a son in grade school who is off at camp right now.

August 10, 2008

This past week I got a short note from Ray Spickler ('78). He has taken up distance bike riding and especially for some good cause. This time he is riding for the KC MS Bike ride. It seems to me he has done several other rides of this kind. He has a new email address which is below.

August 13, 2008

Last evening, I got a phone call from Lisa (Meyer) Connor ('91) to tell me about a new arrival, a daughter in early August. Mary Katherine has three big brothers.

August 14, 2008

I heard that Fr. Carl Starkloff died this morning from leukemia. He has been battling this and a couple of other forms of cancer for several years. He taught theology here back in the '60s and '70s.

Mike Philips ('99) stopped in this morning. He is in the

Army at Fort Riley, KS. He has had a couple of rotations through Iraq, but is now through with that. He is one of the construction supervisors out at Riley. He lives in Manhattan, KS, just off the base.

August 15, 2008

Ryan Biga ('09) dropped in yesterday afternoon to say that all is going well with our alums starting at KCUMB. Ryan and Kelly Hagan are pre-med scholars who transferred this fall to KCUMB after their third year here. He tells me that besides these two, there are several others in his class including Nathan Sprengel, who was a post-baccalaureate student last year, Nikki Schweppe ('08), Josh Nast ('07), and Kenny Byrd ('08). He tells me also that Tucker Lienhup ('04) at KCUMB will be doing his fourth year rotations in the Detroit area. The email addresses for each of them is their first initial and last name (e.g., kbyrd for Kenny Byrd). Then it is @KCUMB.edu. Email addresses for Kenny and Kelly and Ryan are below.

And I got a short note this afternoon from Greg Hobson ('07). Greg has started Medical school at Des Moines U. Osteopathic College. You notice the Des Moines email address is a bit more – Greg's is below.

This weekend is freshman orientation. There are supposed to be something like 380 freshmen. I expect 4 or 5 post baccalaureate pre-med students. In fact, two of them started with General Chemistry this summer.

August 22, 2008

Yesterday morning, one of our students who works for a beauty salon brought me a message from John Kedora's ('98) mother. John is in his final year in a vascular surgery fellowship at Baylor Medical school in Dallas, TX.

And then in the afternoon, Kelly Hagan and Ryan Biga (both '09) stopped in to say hello. They have now finished nearly a month at KCUMB and are quite happy with it. Ryan brought his notebook of handouts and notes which is several inches thick. Their email addresses are below.

August 24, 2008

A note came today from Ellen Christ ('03) telling me she has changed her email address. The new one is below. She hopes that this will cut out some of the tons of spam she has been getting. Good luck, Ellen!

August 25, 2008

This morning, I got a couple of emails from Sarah Lamb ('08) in Washington, DC, actually Bethesda, MD. She is spending this year doing research working with salivary glands of rats and mice at NIH. She has also gotten her name on a paper for the journal *Experimental Neurology* regarding research she did last summer at the U. of Texas Southwestern on muscular dystrophy. Her current email addresses are below.

August 30, 2008

I got an email from Jana (Whittaker) Friedrichsen ('95). She and family have moved from St. Louis to Tulsa, OK. Baby number 4 (a little girl) arrived in February. She joins 3 big brothers. Her new email address is below.

September 2, 2008

Sunday morning we had a baptism for Lisa (Meyer) Connor's ('91) newest (August) addition, Mary Katherine. She is number 4 for Lisa and Mike.

And this morning I got an email from Dave Thoennes ('64). He finally got out of the house and up to Niagara Falls. This was quite a trip for Dave and Paula. Dave has been quite confined for some time with repeated bouts of heart and other health problems. Good news!

September 6, 2008

I talked to Chris Standley ('01) yesterday. He got a MS degree from KU in Exercise Physiology and has become a personal trainer, actually running his own business. He took Organic last year and did very well. So now he is thinking of going to medical school. His email address is below.

September 8, 2008

This afternoon, Josh Nast dropped in for a few minutes, looking very medical in his scrubs. He says that they have about finished their first 5 week Intro to Medicine at KCUMB.

I mentioned earlier that we would be looking for two new faculty in the Chemistry Department. We have succeeded. Dr. Petia Bobadova-Paranova replaces Philip Colombo in Physical Chemistry (and Gen. Chem.). She has her degree from Sofia, Bulgaria. She has been in this country for about 8 or 9 years, for two or three post-docs and teaching this past year.

Dr. Aditya Unni is from India originally, but has been in this country most of his life, and has his degree from the University of Chicago. He replaces Don Gibbs in Organic Chemistry.

One other thing I might mention is that we (Rockhurst) are getting ready to celebrate our 100th Anniversary in 2010. This is the anniversary of the charter. The High School actually opened in 1914 and the College in 1917, so you might be seeing a few more anniversaries in the coming years!

You might also want to check your email address below. Some of them I have had a number of years, and I suspect some are definitely outdated. Let me know, and I will fix it for you for the next issue. Remember, the email addresses appear here in the printed edition, but not in the web edition (www.rockhurst.edu). This edition and many previous editions are archived on the Rockhurst web site.

That reminds me of one other thing. If anyone has any old editions of this newsletter, I would appreciate having it/them

for the University archives. We could copy them and return the originals.

One more point is that there are several other folks less connected with the Chemistry Department and the Science Division who have asked to be included in this mailing list. So you may see a few of them mentioned from time to time. They are all good friends and Rockhurst alums.

I encourage you to let me know what goes on with you, and I'll pass the word along. And if you know of anyone who does not get this newsletter and would like to, let me know, either by regular mail, or by email. My email address is James.Wheeler@Rockhurst.edu and below and on the web site if you are reading this on the Rockhurst web site. So,

God bless you all.

James D. Wheeler, S. J.

*We're excited to announce
the men's basketball team will play
Central Missouri State University
in the new SPRINT CENTER
on November 25, 2008.*

*Game time will be 2 p.m.
There is no charge for admission*

*After the Rockhurst victory,
alumni, family and friends will gather
at Ragland Road for food and beverage.*

*For more information
please email mary.landiers@rockhurst.edu
or call the alumni office at 816-501-4025.*
