

Registration Dates for Summer/Fall 2016

The dates listed below are the dates students may begin online registration. To register online, Undergraduate students must meet with their Academic Advisor to receive an alternate PIN and discuss their schedule. Undergraduates must keep this PIN for access to online registration throughout the add/drop period. Graduate students do not need an alternate PIN to register online but are encouraged to meet with their advisor. If you need to make any changes to your schedule past the deadline or if you have questions regarding courses and/or curriculum please contact your Academic Advisor.

Note: For registration purposes, your student classification is based on the hours you have completed (it does not include your current enrollment).

The [course schedule](#) will be posted online for viewing on March 10, 2016.
