**Policies on Portable Appliances, Smoking, and Open Flames**

*On-Campus Student Housing Facility-Fire Regulations*

1. Restricted Appliances: University fire, safety, and sanitation regulations prohibit the use of certain items and appliances in the residence rooms. Items not allowed are: Exposed heating coils (i.e., hot plates and toaster ovens), extension cords, air conditioners, waterbeds, ceiling fans, Christmas Lights, and halogen lamps.
2. Residence Hall Rooms are not designed for cooking. Only small appliances with completely enclosed coils are permitted (i.e., hot pots, coffee pots, and George Foreman grills). You are encouraged to plug your appliances into an outlet strip with a U.L.-approved breaker. The University is not responsible for damage to appliances due to power outages or surges. We recommend the purchase of a surge protector for computer and stereo equipment.
3. Residents/guests are not allowed to tamper with or disarm any smoke detector or fire safety device in any residence hall room, THV Unit, or OCH Unit, including any common area.
4. Smoke/Tobacco-Free Facilities: All residential facilities are considered smoke and tobacco-free. No smoking is allowed in any facility. This includes the individual rooms, apartments, bathroom/shower facilities, and public areas. Violation will result in a minimum of a monetary fine. All buildings have posted signage notifying residents and guests of appropriate distances smoking is allowed from on-campus buildings.
5. Open Flames: No open flames of any type are permitted. Candles (or decorative candles) are not allowed for any reason. The burning of incense and the possession of combustible chemicals are strictly prohibited. Grills provided by the University may only be used in the Townhouse Village, with the exception of grills used by the occupants of an On-Campus House-OCH. Portable grills are allowed at the On-Campus Houses but must be kept outside and not used under any porch, balcony, or roof overhang and must be at minimum five (5) feet from the sides of any house. Fire pits are not permitted on campus property.

**Fire Evacuation Procedures**

All traditional residence halls (McGee, Xavier-Loyola, and Corcoran) have evacuation maps posted in each building and on each resident’s door. Written evacuation instructions are located

at every elevator landing or stairwell on each floor. Townhouse Village and On-Campus Housing residents are instructed upon move-in to familiarize themselves with all evacuation points on their individual THV Units and every OCH House.

In the event of a fire, the University expects that all campus community members will evacuate by the nearest exit, closing doors and activating the fire alarm system (if one is nearby) as they leave (or contact security using a red phone, code blue phone, dialing 4010 from any on-campus phone, or dialing 816-501-4010 by cell phone). If circumstances permit at the time of the alarm, additional instructions will be given regarding where students and/or staff are to relocate.

### **Fire Education and Training Programs**

Fire safety education programs for all residents of on-campus student housing and all employees with responsibilities related to that housing are held at the beginning of each academic year as part of orientation. Their purpose is to: familiarize everyone with the fire safety system in each facility, train them on procedures to follow if there is a fire, and inform them of the University's fire safety policies. Information distributed includes maps of each facility's evacuation route and any fire alarms and fire suppression equipment available in the facility. Attendees are advised that participation in fire drills is mandatory, and any student with a disability is given the option of having a "buddy" assigned to assist them. Additional instructions are given during fire drills.

### **Reporting Fires**

The University is required to disclose each year statistical data on all fires that occurred in on-campus student housing. These incidents are captured when a fire alarm is pulled and/or the fire department responds to a fire. If you encounter a fire that presents an emergency, ensure your own safety, and then please call 911.

There may also be instances when a fire is extinguished quickly, an alarm is not pulled, or a response by the fire department is not necessary. It is important that these incidents be recorded as well. Therefore, if you are aware of such a fire, see evidence of one or hear about one, you should contact the Chief of the Department of Safety and Security at 816-501-4010. When providing notification of a fire, give as much information as possible about the fire's location, date, time, and cause.

### **Plans for Future Improvements**

The University periodically reviews its fire safety protections and procedures. At this time, it has no plans for future improvements.
